# FAERE

# doctoral workshop 2025

## Call for papers

The **FAERE** and the **Solar Academy** are pleased to announce the launch of the fourth edition of the doctoral workshop, which will be held in Annecy on 26 and 27 May 2025.

**Doctoral students working in environmental, natural resources and energy economics are invited to present their papers, research projects or thesis chapters.**

The workshop will host both theoretical and empirical works, at different stages of development. The objective is to open a space for academic and friendly discussion, to bring together the PhD students community in our field, allowing them to present their work in progress, test research ideas, share experiences, and seek feedback on research challenges from their peers.

Each of the 10 selected presenters will receive feedback from two discussants (one junior and one senior researcher), as well as benefit from constructive exchanges in a supportive environment.

**If you wish to participate, please submit a long abstract (max 1000 words) along with the complete list of authors (with status, e.g., PhD student, professor), your PhD year, university and laboratory, by 24 March 2025 to: [karine.constant@univ-orleans.fr](mailto:karine.constant@univ-orleans.fr)**

Priority will be given to those who have not yet participated in the workshop and to papers written by one or more PhD students without senior co-authors.

Mission expenses (travel and accommodation) will be covered for students whose FAERE membership is up to date at the time of the workshop.

**26 - 27  
May 2025  
Annecy**

**Important dates**  
Submission: 24 March 2025  
Notification of acceptance: 22 April 2025
